### Memo

In Registering to the National Championship you'll have assigned a Shooter Number (p.i.n.). The motive is so that the person that scores your targets does not have to know the identity of the shooter. This is to guarantee impartiality. Please retain safely this number. This is very important because the information shown on the card defines the assigned bench and lane to shoot in. We suggest you always check the data transcribed on your target exactly correspond to the information given to you by the organisers before beginning to shoot. Please always ask in case of doubt or mistakes.

Your Shooter Number will be valid for the whole event.

Please ensure that you wear your own Competitor Card (name tag) supplied in its transparent case, this will be mandatory during all matches. A hole has been provided for a neck support.

Have Fun
